TENURE DOSSIER SUBMISSION CHECKLIST

Candidate: Dr. Dorothy Langston, Associate Professor, Department of Computational Biology

Review cycle: 2026 to 2027 academic year. Department: Computational Biology. Internal file reference: HU-TEN-2026-0033.

Submission deadline: Monday, November 2, 2026, 5:00 PM Eastern, via the Provost portal.

Required components

Item	Owner	Status	Target date
Personal statement (research, teaching, service)	D. Langston	Drafting	Oct 12, 2026
Updated curriculum vitae	D. Langston	Complete	Oct 2, 2026
Publication record with citation counts	D. Langston	In review	Oct 16, 2026
Whitfield and NGC grant summary	D. Langston	Drafting	Oct 19, 2026
Teaching evaluations, last five years	Dept. office	Requested	Oct 9, 2026
External reviewer letters (six)	Dept. chair	In progress	Oct 26, 2026
Voss collaboration paper, accepted or in press	D. Langston	Pending	Oct 23, 2026

Notes

The allosteric networks manuscript with Dr. Elena Voss (Ridgemont Institute) at The Ashford Journal of Molecular Biology, reference AJMB-2025-0894, is in its third revision round. An acceptance or in-press confirmation before October 23 would materially strengthen the file. If the decision slips, include the latest reviewer correspondence as supporting evidence.

Direct questions on portal access to the Department office. Candidate contact: dorothy.langston@Finthesiss.ai
