Langston Lab Seminar Series

Department of Computational Biology, Haverstone University

Fall 2026 term. Wednesdays, following the lab meeting block. Open to the department. RSVP through the lab seminar form. Recordings posted to the lab Vimeo with speaker consent.

Date	Speaker	Topic
Wed, Oct 7, 2026	Dr. Ryan Kirkland	Network centrality and allosteric hotspots
Wed, Oct 21, 2026	Dr. Sarah Okonkwo	Molecular dynamics of interface flexibility
Wed, Nov 4, 2026	Wei Chen	Coevolution signals in protein interfaces
Wed, Nov 18, 2026	Dr. Elena Voss, Ridgemont	Allosteric coupling across assemblies
Wed, Dec 2, 2026	Dr. Dorothy Langston	Year in review and the road ahead

Host: Dr. Dorothy Langston. Contact the lab manager for room access. The year-end research review and holiday dinner follow on Friday, December 4, 2026.
