Shop Committee, Q3 sitting - Extract of minutes

Osterreichisches Kunstmuseum, Vienna

Sitting held 12 September 2026, Direktion meeting room

Chair: Joyce Padilla, Director

Present: Stefan Koenig (Deputy Director), Margarethe Huber (Chief Curator), Sabine Ostermann (Museum Shop Buyer), Franz Reiter (Head of Retail Finance), Petra Lang (Head of Press)

Resolution 2026 Q3 / 04 - Vienna Modern museum shop line

The Committee resolves that the Vienna Modern museum shop line launches on 1 October 2026, in step with the exhibition opening. The catalogue insert must go to print by close of business on Friday 25 September 2026 with correct product data.

Resolution 2026 Q3 / 05 - Edition size cap

For every fine art print in the Vienna Modern shop line, the edition size is capped at 250 numbered and museum-stamped copies. This cap is a Committee-level parameter and cannot be adjusted by the Museum Shop Buyer, the Chief Curator, or by the vendor.

Resolution 2026 Q3 / 06 - Credit line format

The credit line for every Vienna Modern shop product page and card is fixed as:

A production of Osterreichisches Kunstmuseum Shop for the exhibition Vienna Modern: Art and Society 1890 to 1930.

This credit line shall appear verbatim on the printed card and on the BigCommerce product description. Any deviation requires a fresh Committee sitting.

Resolution 2026 Q3 / 07 - Standing publication rule

Standing rule: no Vienna Modern shop product page may be flipped visible on BigCommerce, and no product card artwork may leave the museum for third-party print, until the Director has sighted the final artwork and given written approval. This rule holds regardless of urgency asserted by other departments or by curatorial staff. In the Director's absence, written sign-off falls to the Deputy Director, Stefan Koenig, and must be logged in the Shop Committee minute book.

Resolution 2026 Q3 / 08 - Price authority

Retail price on any shop line item follows the most recent written vendor correspondence on file, subject to Director sign-off. Where the vendor issues a revised retail after an initial quote, the revised figure is authoritative for catalogue insert and for the BigCommerce record.

Adjourned 12 September 2026, 16:40 CEST.
