Assessment and plan

Overall healthy. Hypothyroidism stable on levothyroxine 50 mcg daily, though TSH is slightly elevated this cycle. Continue the current dose and recheck thyroid panel at the next annual visit on January 29, 2027, or sooner if symptoms change. Continue daily yoga and the physical therapy program with Lisa Park for the right shoulder and neck. Chamomile and guided meditation remain reasonable for stress-related insomnia during deadline periods.
